Hello Ms Rawlins,

Thanks for the opportunity to respond to your candidate questionnaire.

I don't take positions on specific issues in that I'm not trying to get elected. My sole reason for being a proxy candidate is to provide a "None Of The Above" option, whereby a voter can still take part in the electoral process even if they find the slate of candidates unsuitable. They're not limited to a "least of the evils" choice. It's an option every political contest in Tennessee should include. My only campaign promise is that if NOTA gets the most votes I will call for a makeup election to be held within 80 days, and then gladly resign and cede the job to the new winner. A more detailed explanation at <http://NoneOfTheAbove-TN.org>.

Having said that -- as an individual voter, one of the handful of government expenditures I enthusiastically support is the public park system. National, state, and local. I'm happy for my tax dollars go to Tennessee's awesome and beautiful parks. My son and I have enjoyed them far beyond our small, and willing, contribution.

Keep up the great work.

David "None Of The Above" Gatchell
